

PATIENT INFORMATION

Your physician has referred your care to one of our Infusion Centers. Please take the time to read the information below to become more familiar about our services.

Who we are...What we do...

Our outpatient infusion center is a dedicated facility for IV (intravenous) medication delivery and management. Our experienced staff is specialized in the administration and care of IV and injectable medications. We are dedicated to the highest level of service and clinical care, so that our patients can resume their normal activity and heal as quickly as possible.

The Infusion Experience...

Our convenient and comfortable infusion center is designed for you, the patient. We utilize only the best in clinical equipment and medical tools to insure your comfort and care remain top priority. Leather recliners, cable TV, magazines, and wireless internet are available for your convenience while receiving your treatment.

Before your Appointment...

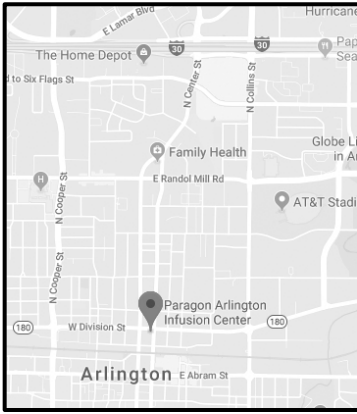

Please remember to bring any insurance cards, medical information, and a current medication list with you so that we may update your information. Our office cannot provide meals for our patients, so please bring any food you might need to your appointment. If you are running late or need to cancel, please call to notify us of the change; failure to do so may delay your treatment.

Where am I going?
